

Memory Game - When you say

Rules of the Game

This game is best for 1 or more players.

52 picture cards are used.

The goal is to find the most pairs of matching cards.

GAME SETUP

1. Mix and spread the cards picture-side-down on a flat surface.
2. Form 4 rows of cards across and 13 rows down, using all 52 cards (26 pairs). Or, divide the cards in half (26 pairs), and form 2 rows across and 26 rows down, for beginners.

GAME PLAY

1. Youngest player goes first. Players take turns, to the left, turning any *two* cards picture-side-up. The cards must be turned over completely, so that all players can see them. When the card is turned the player has to read what is on the card.

• A MATCH: A player makes a match if the two cards turned picture-side-up are identical. When a match is made, the player takes both cards and places them in front of him or her. That player then takes another turn, and continues taking turns until he or she misses.

• A MISS: A player misses if the two cards turned over are not identical. When a player misses, he or she turns the two cards picture-side-down again, in the same place. That player's turn ends-and all players try to remember which cards were turned over, for future matches.

2. The game continues until all cards have been matched and removed from the playing area. All players then count up their matching pairs, with the winner having the most matches.
